EXPERIENCE / MUSIC / CONTACT

The vibe shapes the set. Technique keeps it together.

ThatsNotorious is a Houston-based DJ and producer whose work is built around one practical idea: the room can change, but the set still needs a clear hand behind it. Battle-DJ roots developed the timing, scratching and technical discipline. Years of open-format performance developed the instincts to read a crowd, shift direction and keep the floor connected.

That control was pressure-tested through multi-year experience at Drink Houston, packed late-night rooms, selected New York nightlife work at Slate Manhattan and DJ sets at Miami's Calle Ocho Festival and Fuego Fest. Those environments demanded fast decisions, clean recovery and the ability to move between audiences without losing momentum.

Today, Afro x Tech x Deep House lead the sound, while reggaeton, hip-hop and global club records keep the set open. ThatsNotorious is building the next phase around original production, live performance and the upcoming EP Feel-Good Frequency-house music with color, rhythm and room to move.
